when all you have to do is to put the things in to soak and boil—and then just rinse them out? That's the Pearline way of washingeasy for women and easy for clothes. In all kinds of cleaning, too, you get rid of that tiresome rubbing. Any one can see what it saves. And remember, no matter how you use Pearline, it's absolutely and entirely harmless.

RIVER AND HARBOR BILL.

How It Passed the House and the

The river and harbor bill passed by the House yesterday carries in actual appropriations \$10,330,500, and authorizes contracts for thirty-two new projects, with a limit of cost of \$51,721,210. Only forty minutes' debate were allowed. Mr. Hooker chairman of the river and harbor committee, attempted to secure an extension of this time, but first Mr. McGuire of California objected and then M1. Grosvenor of Chio objected. The debate was very spirited. Mr. Dockery of Missouri attacked the alleged recklessness with which it was pro-posed to extend the "continuing contract" system in the bill-a natural result, he claimed, of the policy of giving the government's promise to pay instead of paying

ment's promise to pay instead of paying cash. He admitted, however, the great economy of the contract system, which Mr. Burton of Ohio had stated from official repetts to be 30 per cent.

Mr. Hepburn of Iowa also made a vicious onslaught on the bill, which, he said, had crough "pork" in it to insure its passage. He devoted himself particularly to the Mississippi river commission, the work of which he denounced. This brought forth a reply from Mr. Catchings, the former chairreply from Mr. Catchings, the former chair-man of rivers and harbors, and a defense of the measure from Mr. Hooker of New Yerk, the present chairman. When the vote was finally taken the majority in tavor of it was so overwhelming that its opponents were unable to secure the ayes

Orphan Boys Banqueted.

The orphan boys at St. Jeseph's Asylum enjoyed their usual Easter treat yesterday at a great feast provided by a lady whose constant benefactions to them makes her the idol of the boys. Two hundred youngsters sat down to a regular banquet of ice cream, cake, candy and fruit, and after it were each presented with a base ball and bat, catching gloves and mask, skates, tops, marbles and beautifully colored eggs. Before the feast the boys gave a delightful entertainment, with singing and recitations, to their generous hostess.

Perhaps the "New Woman" will be a stronger woman than the old one. Certainly, fresh air and the right exercise will do much for her. Fresh air is a great restorative, exercise a great nerve tonic if a woman be in condition to take it. A healthy woman can avoid disease. She can avoid the seemingly almost inevitable "weakness" of her sex if she pursues the proper hygienic methods. The same methods will not cure her if she be already sick.

Taken under medical direction, in connection with the right medicine, they will help effect a cure. No women who suffers at all from so-called "female weakness" should attempt athletics of any sort. She should first put herself into possession of strong and hearty health by taking Dr. Pierce's Favorite Prescription. After she is thoroughly well, exercise and diversion will help to keep her well. The cure should come first. Dr. Pierce's Favorite Prescription is designed and recommended for only the one thing. It acts directly upon one set of organs. No matter what is the matter with them, it will cure it. It will not cure anything else. It is a wholesome tonic, an invigorating nervine, or nerve-food as well as a healing medicine, and thousands of perfectly well women have found that by taking it regularly during the period of pregnancy, the danger and pain of parturition were much lessened, and in many cases, almost entirely obviated.

In every American household, there should be a copy of Dr. Pierce's great work, "Common sense Medical Adviser," 1008 pages, illustrated. One copy free to any address on receipt of 21 one cent stamps to pay for mailing only. World's Dispensary Medical Association, Buffalo, N. Y.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper ef-forts—gentle efforts—pleasant efforts— rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine arti-cle, which is manufactured by the California Fig Syrup Co. only and sold by

all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

JEFFERSON'S BIRTHDAY.

Celebration Friday Night by Alumni of the University of Virginia. The University of Virginia Alumni Association of the District will celebrate the birthday of Thomas Jefferson at the Washington Club, 1710 I street, next Friday evening. The anniversary of the natal day of the author of the Declaration of Independence falls on the 13th of the month, but as there is to be a celebration on that day at Monticello, near Charlottesville, where the ashes of the sage repose, the alumni decided to hold their celebration sconer, in order to give many members an opportunity to visit Albemarle next Monday. The committee in charge of Friday night's entertainment is composed of C. G. Lee, chairman; Thomas Nelson Page, Dr. L. W. Glazebrook, E. I. Renick, R. E. L. Preston, W. D. Cabell, Dr. T. Clarke, C. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Coca, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency of disease. Hundreds of subtle maledies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette. Made simply with boiling water or milk. Sold only in half-pound tins, by grocers, labeled thus:
